

# Block SPAM

- ✓ No Extra Equipment Required
- ✓ Cloud-based Filtering
- ✓ Redundant Servers
- ✓ Email Continuity
- ✓ No Contracts
- ✓ Low Cost

# Knock Out Email Viruses

Powered By:

**GFI MAXMailProtection™**

*Hosted email security and continuity*

# What are the benefits of MAX MailProtection?

## No Extra Equipment Required

No extra hardware to purchase  
No extra software to maintain

## Cloud-based Filtering

Block SPAM before it reaches your network  
Save network bandwidth & reduce server load

## Redundant Servers

A globally distributed network infrastructure  
provides scalability, reliability and redundancy

## Email Continuity

Automatic queuing of email messages if your local  
mail server is off-line. Queued messages are  
delivered once your email server is back online

## No Contracts

There are no fixed contract terms, termination fees,  
or other provisions to lock you in

## Low Cost

\$2ex per mailbox per month
