

bPhone - Business Grade VOIP

bPhone and it Local – An integrated solution

- ✓ Single point of contact
- ✓ Competitive rates
- ✓ Sydney based servers
- ✓ Unique security solution
- ✓ Comprehensive support services

What are the benefits of using bPhone?

Call Rates

Call Type	Rate (ex)	Increment
Local	10c	Untimed
STD	10c	Untimed
Mobile	9c	Per 30 Seconds

bPhone Plans

Plan Name	DID's	Monthly (ex)
bPhone 2 Channel	0	\$15
bPhone 5 Channel	2	\$30
bPhone 10 Channel	5	\$50

Additional Direct In-Dial (DID) Numbers \$5ex per month each

Sydney Servers

bPhone servers are located in a Sydney data centre, which optimises call quality

Unique Security Solution

bPhone VOIP connections use VPN connections at no additional cost (on compatible equipment)

This is a unique offering from bPhone and is part of the end-to-end solution provided with it Local

Implementation Options

Hosted – This is where bPhone provides the phone lines as well as the phone system including voicemail and music on hold

Line only – The bPhone service connects directly into an existing phone system located on your premises (such as the Elastix VOIP server)

Elastix Phone System Support

Elastix is a business-grade onsite VOIP server

bPhone has extensive experience configuring and supporting these phone systems

Hardware Sales

- ✓ Elastix Phone Servers
- ✓ Telephone Handsets
- ✓ Headsets
- ✓ Wireless and Bluetooth solutions

One Stop for Support

Direct support contact – bPhone is part of it Local
Ongoing support is provided direct
